

## Flowrox Service:

### Carefree valves and pumps

We offer precise industrial services, spare parts and maintenance that allow you to optimize your production.

A well-maintained pump = a carefree pump

### Spare parts for progressive cavity pumps

Flowrox manufactures and supplies spare parts for the most common types of progressive cavity pumps. We supply stators, rotors, drive shafts, coupling rods, hinge sets, bearing repair kits and seals for Allweiler, Seepex, Netzsch, Mono, PCM, Bornemann and other pumps - reliably with 20 years of experience.

*Our spare parts are manufactured according to the highest quality standards (ISO 9001:2008).*

## CUSTOMER BENEFITS

Cost effective  
& low overall costs

Short maintenance shutdowns

Predictability, reliability &  
operational functioning of  
equipment

Predictive maintenance

High-quality spare parts

Process-optimized equipment

## Keep your pumps and valves in top condition

Flowrox offers valve and maintenance services that ensure the reliable functioning of your equipment and low operating costs.

### Manufacturing, warehousing and maintenance of screw pumps and hose pumps:

- We manufacture the spare parts ourselves, guaranteeing availability
- We stock spare parts for screw pumps and stand-by pumps
- We service and repair pumps
- Our spare parts are manufactured according to the highest quality standards (ISO 9001:2008).

### Valve maintenance:

- Maintenance for hose valves and slide gate valves, plus other types of valves by agreement.

### Process analysis:

- Inspection of valves and pumps by a Flowrox maintenance technician
- Analysis of processes, improvement suggestions, and replacement or alteration of valves and pumps to optimize processes.

### Centrifugal pump spare parts and maintenance:

- We offer a local warehousing service for the most common and compatible spare parts for centrifugal pumps.
- By agreement we can stock parts and stand-by pumps according to the customer's equipment.
- Maintenance of centrifugal pumps.

### Complete replacement slurry pumps (centrifugal)

- Readiness to deliver centrifugal pumps manufactured by Schur & Company directly from the warehouse.

### Maintenance shutdowns, equipment installations and training We supply services efficiently and locally using Flowrox-certified partners throughout Finland

- Annual maintenance for valves and pumps
- Product updates and replacement installations
- Modernizations: Smart Solutions™ and IIoT ability

- Installation supervision and training for the installation and maintenance of new and existing Flowrox products.

### Service contracts

- Predictive maintenance and service agreements
- 24/7 spare parts service
- Warehousing services

# Carefree service agreements ”

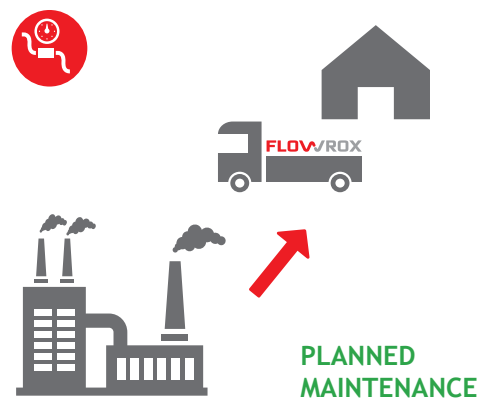

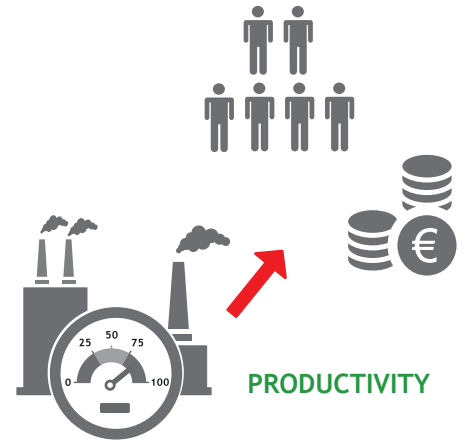

## > Planned maintenance

By planning the maintenance and inspections of your pumps and valves in advance, you can help ensure uninterrupted production. Regular maintenance maintains the performance and extends the lifetime of your equipment. Our network of certified partners provides easy and carefree maintenance services.

Before equipment can be serviced, it must be cleaned and inspected. In connection with the maintenance, we replace and invoice only for those parts and services that are essential and that have been agreed in advance.

## > Cost savings with spare parts warehousing and service agreements

Spare parts warehousing and service agreements generate cost savings in maintenance operations, allowing you to focus on your core business.
